

**JOURNAL OF
ADVANCED MANUFACTURING TECHNOLOGY**

Contents

Volume 15

Number 2

May - August 2021

<i>No.</i>	<i>Title</i>	<i>Page</i>
1.	Enhanced Mechanical Properties of Organic-Inorganic Chitosan/Nano Silica Composite Film <i>N.A.C. Imani, Y. Kusumastuti, H.T.B.M. Petrus, D. Timotius and M. Kobayashi</i>	1
2.	Development of Piezoelectric Harvesting System as an Alternative Renewable Energy for Automated Street Light in Malaysia <i>M.I.F. Kamardan, A.Z. Annuar, H.A. Zakaria, W. Ahmed and W.H. Wan Hassan</i>	11
3.	Development of Warehouse Robot with Advanced Line Following and Background Color Sensors <i>J.W. Lok, W.M.W. Muda and A.N. Woro</i>	23
4.	Hybrid Composites of Polypropylene/Rice Husk/Titanium Dioxide: The Effects of Compatibilizer on the Mechanical Properties and Morphology <i>M. Awang, W.R. Wan Mohd, N. Sarifuddin, T.N.S. Tengku Ismail and N. Harun</i>	35
5.	A Mathematical Model for Multi-Period Surgical Scheduling with Capacity Constraint <i>W. Wisittipanich, C. Boonmee, K. Khwanngern, W. Chattinnawat and M. Woschank</i>	47
6.	Deployment of PDCA by Integrating Lean Manufacturing Tools <i>R. Azzemou and M. Noureddine</i>	57
7.	Importance of Knowledge-Attitude-Practice to Enhance University Technology Transfer <i>S. Sivarao, S.H. Yahaya, S. Pujari, M.S. Salleh and K. Kadirgama</i>	71

Chief Editor

First and foremost, warm greetings to all the readers. We are very pleased to announce that the Journal of Advanced Manufacturing Technology (JAMT) is now **Q3 Scopus Indexed** and for its 31st issue of publication. Currently, JAMT addresses three objectives; to provide a platform for the discussion and knowledge sharing on current and future issues, practices, innovations and trends of engineering and information technology amongst the academics, researchers and practitioners, to promote and encourage exploration and dissemination of knowledge in relation to engineering and information technology, and to publish papers in the areas of engineering and information technology particularly green technology, system engineering, human-technology interaction and emerging technology.

JAMT will continuously be a great and significant contribution to the Faculty of Manufacturing Engineering and UTeM. JAMT strives to attract and engage a global readership that is primarily academic. This move is in line with the mission of university "To Be One of the World's Leading Innovative and Creative Technical Universities" JAMT welcomes any papers, either written individually or co-written, which will make a substantial contribution to the development and success of the journal. Please do not hesitate to contact us for any uncertainty or enquiries.

I wish to take this opportunity to thank all the individuals involved in this publication particularly the editorial and technical boards for their tireless efforts in ensuring the continued success of JAMT. Moreover, my gratitude is extended to all contributors.

Best wishes and thank you for your support.
